

Elisiura

Nail art product catalogue

Elisium is a Polish semi-permanent manicure brand developed for self-confident women who appreciate beauty, the highest standards and professionalism. The idea to launch safe and innovative manicure products ideal for use in professional salons as well as for home-use was born in 2017 in the neighbourhood of Bielsko-Biała, in the south of Poland. The first products in our portfolio were FlexyGel and a palette of hybrid nail polish selected to suit all tastes and age groups. We've divided this palette into 15 colour-paradises. Each one of them fits different preferences and personality traits.

The main concept was to offer stylists the tools that would allow them to work faster and easier. We've managed to create highly efficient and inventive products at favourable prices. Our products enable to get semi-permanent manicure faster and cheaper. The selection of unique and trendy colours will definitely meet your changing needs.

Our products are available online for retail and wholesale customers. Our offer is dedicated to nail salons, nail schools and academies as well as to individual users. **We are the first European producer and distributor** of FlexyGel, 3D UV Gel Stamping Plates and Minicure.

**FlexyGel** is our bestseller and hero product. It is used for strengthening nails and making professional nail extensions. It has a form of very thick gel as easy to shape as acrylic gel and just as durable. FlexyGel does not contain acrylic particles though, it does not slide off soaking your cuticles, it does not harden before you cure it in a UV/LED lamp. It is available in 4 colours.

Flexy Gel makes a perfect couple with **Quick Shape Nail Forms** – unique forms which allow building perfect nail extensions in no time. Trust us, there is no easier way to build nail extensions.

Are you ready for more innovations? **3D UV Gel Stamping Plates** offer tri-dimensional and stunning nail art in 14 different colours.

**Minicure** is a mini version of hybrid nail polish packed in a convenient tube with a brush at its tip. Its biggest advantages include compact packaging and the great precision it offers.

We're sure you'll fall in love with other solutions we offer such as Magic Dust, Glitter Nail Polish and comprehensive Elisium Sets.

Our offer includes **marketing materials** such as posters, banners and gift bags with our logo.

# FlexyGel

We offer FlexyGel in 4 colours and 2 sizes.

Milky

White

Milky

Beige

Rose

No acrylic

For professional users and for home-use.

Easy to shape

## FlexyGel System

is a marvellous way to quickly build nail extensions which limits filing to minimum!

FlexyGel is a **dense and flexible nail gel** with just the perfect thickness level and no unpleasant odour. This innovative product locked in a small tube allows modelling without rush and it won't harden before you cure

it in a LED/UV lamp. When **used together with reusable Quick Shape Nail Forms**, getting the impeccable C-curve with a smooth line is a piece of cake and you're ready to go out in to time.

**Check** how fast and easy it is to get the perfect manicure with **FlexyGel!**

**Stay tuned!** Follow our YouTube channel to know all Elisium novelties. You'll find here **tutorials and training videos** created especially for you!

**Quick Shape Nail Form – Type 1** – is dedicated to those who like subtle and natural looking gel manicure. This narrow form is ideal for creating C-curve with lower apex and almond shaped extensions.

**Quick Shape Nail Form – Type 2** – offers forms which are wider, longer and deeper. This allows to create more dramatic effect with higher apex and stronger look. This form type builds perfect square nails.

**Slip Liquid** is a professional liquid necessary for shaping Flexy Gel. You can only experience the excellence of working with FlexyGel if you soak the brush with Slip Liquid. Give it a try. You'll be stunned with the easiness of applying and modelling Flexy Gel!

Base and Top Coat

Hybrid Nail Polish

# Diamond Powder

## Diamond Powder Nail System

Have you ever tried Dipping Powder? If you haven't, its high time you give it a try! **Innovative Diamond Powder Nail System** offers lasting manicure – **no UV/LED lamp needed!**

Diamond Powder Nail System makes an excellent alternative to hybrid gel polish or traditional manicure and is a perfect choice for those with sensitive skin or suffering from allergies.

What are the biggest advantages of this innovative method? It does not require the use of UV/LED lamp – dipping powder hardens in contact with air. It contains **vitamin E** to prevent nails from turning yellow, and **calcium**, which nourishes and regenerates nails making them stronger. Powder application is very time efficient too. All you need to do is dip the nail into

the colour powder. Diamond Powder Nail System is ideal for difficult or damaged nail plate. It allows building manicure with a very natural look in an easy and pleasant way.

Diamond Powder Nail System by Elisiura is **vegan** and **animal friendly** – it has not been tested on animals!

Choose from **100 stunning colours**

Contains **vitamin E** and **calcium**

Use the liquid after each step

# Stamping Plates
